

MISSION STATEMENT
ONTARIO DAIRY GOAT CO-OPERATIVE

Founded in 2002, ODGC is a co-operative supplying delicious Ontario dairy goat milk, which is both healthy for you and aligned with your family's values in mind. We broker local grade A tested goat milk from our co-op member families that we know and trust, supporting our communities and creating meaningful relationships with those around us. We take pride in our co-op to create experiences where passion and purpose live together.

Our staff and board of directors' roles are to build trust and teamwork, efficiently and proactively solve business problems, develop and collaborate idea-sharing leadership skills to guide the co-op on the global market stage, approach our responsibilities with passion, commitment and knowledge to set us apart from competition, while maintaining the highest goat milk standards to stay competitive in tomorrow's world.

Return maximum value on investment to all of our members, while being open to new membership, allowing the co-op to create sustainable growth and maximize the co-op's potential and value in the Ontario dairy goat milk industry.
